Many surprises and interesting concept.

I'm not really into scary games, but the game keeps me going to find the truth of the story.

Definitely recommend this to my friends who enjoy the genre.~. I didn't try the story yet, but I can say I'm loving the Labyrinth mode so far. I was surprised to find out that it also included some riddles and puzzles, as well as multiple doors warps (where you need to find the right sequence, think Pokemon Red psychic gym).

I definitely recommend this and will update my review after trying the story mode.
